## A Country House,

And about 200 acres of Land, within 15 miles of Alexandria, will be sold by the subscriber. The house was formerly occupied by himself, and is about one third of a mile from his present dwelling. The situation is high and remarkably healthy. The house has 4 rooms, and a kitchen and pantry on the lower floor, and four chambers with fire places in the 2d story. It was well built under the superintendence of Mr. Lowrey, a respectable English architect, and would make a comfortable summer retreat for a genteel family, or might be made a valuable Tavern by opening a road through the land. About one half of the land is in wood; the residue is capable of being made handsome grounds. There is a good well and pump in the yard; and there are several good springs on the land. The terms of payment will be one fifth in four months; the residue in four equal annual payments with interest; one half secured by notes well endorsed, and the whole by a deed of trust on the land. Possession may be had immediately. W. Cranch.

## From the Boston D. Advertiser.

The fifty-second number of the Edinburgh Review contains a very entertaining article on the Narrative of Robert Adams, an American sailor, who was detained as a slave, for several years in the interior of Africa. He sailed from America in June, 1810, in the ship Charles, and proceeding on a trading voyage, to the coast of Africa, was shipwrecked near Cape Blanco, 400 miles to the northward of Senegal. The whole crew were there made prisoners by a tribe of Moors. A short time afterwards Adams, with a Portuguese, named Stevens, while on a slaving expedition was captured, with his masters, by a large party of negroes, and sent as prisoners to Tombuctoo, to be sold. He remained at this place six months, and the most important part of his narrative relates to this celebrated city. The size, population, wealth, and civilization of this city have been, according to Adams's account, extravagantly exaggerated. It is large in extent, but the houses are much scattered. The King and Queen, Woola and Fatima, are old, with grey hair, and the latter excessively fat, and dressed in blue nankin. The palace is of mud, and excessively mean. The largest vessel is a canoe ten feet long. The soil is easily cultivated, and only with a hoe. The principal food is Guinea corn, ground between two stones, boiled and eaten with goat's milk. No knives, spoons, or other utensils are used at their meals. They have no outward appearances of religion, no house of worship; no priests. They have no shops; the goods imported remain in the king's palace until sold. Adams thinks that no white man had ever been at Tombuctoo before him, from the information he received, and from the curiosity that his colour excited.

After about six months they were ransomed by a party of Moors, and after a distressing journey over the desert, and a variety of interesting adventures, arrived at Wadinaon, where Adams was detained as a slave for a long time, and shockingly maltreated. At length he was ransomed by Mr. Dupuis, the British Vice-Consul at Magadore. From Magadore he proceeded to Fez, and thence, under the care of the American Consul, to Cadiz, where he arrived May 17, 1814. After remaining more than a year at Cadiz, he proceeded to Gibraltar, in pursuit of a passage to his native country, but being disappointed, he worked his passage to London. He remained there a short time in extreme poverty and misery. Being accidentally discovered by some gentlemen, who had heard something of his adventures, he was carried to the office of the African committee. He afterwards underwent various examinations, although very reluctant to delay his embarkation for America, by a number of gentlemen, from the result of which examinations the narrative is compiled. A variety of circumstances are related, as tests of the credibility of Adams, all of which are so decidedly conclusive in his favour, that there is very little reason to doubt his veracity, or the general accuracy of his narrative.

The following is an extract from the part of the narrative which describes the journey of 29 days across the Desert, from Aden to Vled Duleim, during which they did not meet with a human being, or see a tree or shrub, or even a blade of grass. They suffered greatly from food and water, the season being uncommonly dry, and the usual watering places failing.

"The Moors who had been in confinement at Tombuctoo, becoming every day weaker, three of them in the four following days lay down, unable to proceed. They were then placed upon the camels; but continual exposure to the excessive heat of the sun, and the uneasy motion of the camels, soon rendered them unable to support themselves, and towards the end of the second day they made another attempt to pursue their journey on foot, but could not. The next morning at day break they were found dead on the sand, in the place where they had lain down at night, and were left behind without being buried. The next day another of them lay down and like his late unfortunate companions, was left to perish. But on the following day, one of the Moors determined to remain behind, in the hope that he who had dropped the day before, might still come up, and be able to follow the party. Some provisions were left for him. At this time it was expected, what proved to be the fact, that they were within a day's march of their town, but neither of the men ever afterwards made his appearance, and Adams has no doubt that they perished."

From the Montreal Herald of Oct. 16.  
Extract of a letter from Drummondville, dated 8th Oct. 1816.

The settlement on the river St. Francis promises to become the most populous part of Lower Canada; the land is found to be fit for the culture of all kinds of grain and vegetables. The produce of the present year has been confined to Potatoes, of which many settlers will have sufficient for their winter consumption, and for seed for next year. Those that have been placed on their lands this year, cannot raise articles of subsistence before next summer. A general spirit of industry prevails to an extent beyond reasonable expectation; when it is considered that discharged soldiers, whose habits have been years of indolence, form nearly

the whole of the population. To the colonies judicious and unremitting exertions, the settlement is much indebted, with the generous aid that has been furnished by government, and which will be continued as long as the industrious settlers may require it, there is no doubt of the eventual success of this new undertaking.

We regret to be again obliged to notice that restrictions are once more laid on the importation of "Flour, Beef and Pork, Irish and salt; Indian Meal and Lard, from the U. States." We are aware, that the period of Gen. Drummond's proclamation is expired, admitting those articles into this province. We therefore think it would be premature to make any remarks thereon, until the Governor in Council shall have a fair time to reflect on the evil consequences of such a restriction at this time. The district of Montreal is certainly blessed with a fair crop of wheat, and middling crop of vegetables; but is this the case in the extensive district of Quebec? We say no; and that it will require all the resources of the upper part of this province, and of Upper Canada, to support the lower districts, where many parishes must inevitably be in a state of famine before the winter sets in.

**Anecdote.**—A Reverend Parson of this county, lately wanted a piece of carpenter work done speedily and at as cheap a rate as possible. He sent for a neighboring joiner who was ready to do the work, but the parties disagreed about the price. Upon which his Reverence being a good hand at the plane, determined to do the job himself. After the work was completed very tradesman-like the Parson threw the chips and shavings, on a place which the law forbids. The carpenter gave information of this, and the delinquent has since paid the penalty of the transgression.

## Richmond, October 22.

## Direct Tax of the U. States.

A statement from Mr. Smith, Commissioner of the Revenue, has lately come under our eye, showing the valuation of lands, lots with their improvements, dwelling houses and slaves, within the several counties in this state, as revised and settled by the board of Principal Assessors, and the amount of the quota of each for the year 1815.

As this table has never yet been published, we have determined to condense it for the use of our readers—taking it by districts, instead of counties—the state being divided into 26 districts. This statement will serve to show the great inequality of taxation on the land, as settled by the equalizing Land Law of the State. There is no such assessment of the present value of our lands to be found in the archives of our state, because none such has been made for nearly forty years—the only difference between the U. S. tax on land and the State tax on land is, that the U. S. embrace houses and the State does not. With this caution, the subjoined table is submitted to the consideration of the reader:

1st District, composed of the counties of Wythe, Washington, Scott, Lee, Russell and Fannin; value of land 4,004,315 63 do. of slaves 986,082 43—amount of quota of tax, 18,975 11 dollars.

2nd Dist. composed of Botetourt, Montgomery, Fawcett, Giles & Monroe; value lands 3962,740 54—of slaves 1,120 10—amount of quota of tax, 14,232 46.

## JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,  
Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York.

**A FRESH SUPPLY**  
Of the following genuine Medicines.  
For the prevention and cure of Bilious and Malignant Fevers, is recommended.

### Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of these diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age. They are excellently adapted to carry off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration, and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

### HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

### DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body are chiefly of four kinds, viz.—The Terebra, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most cer-

tain remedy known, and has restored to health and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases. Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

### Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, asthmatic, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, &c.

### The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, (the basis of other lotions) and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

### The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

### Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent in oxication, or any other destructive intemperance, the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

### HAMILTON'S ELIXIR.

Sovereign remedy for Colds, obstinate Coughs, Asthma, sore throats, and approaching Consumptions, and most disorders of the breast and lungs.

### Hahn's genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

### Toothache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

### Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

### Lee's Infallible Ague and Fever Drops.

For the cure of agues, remittent, and intermittent fevers.

### Hahn's true & genuine German Corn Plaster.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
